

# Landauer Individual Dose Report

All Landauer badge wearers can access their dose history online through Landauer's "Individual Dose Report." The University of Pennsylvania has a single generic Username/Password and participants then use the serial number located on the back of their dosimeter to retrieve information. For added security, only the serial number located on the back of the dosimeter will work because it includes an extra character. Additionally, when the participant accesses the page there is no participant information listed.

- ❖ Go to [www.myldr.com](http://www.myldr.com)
- ❖ Username = UPennEHRS
- ❖ Password = Rad\_Safety
- ❖ Once you've logged in, select your Account Number from the pull-down list and click on "Go" (this number is located on the back of your body badge and the front of your ring badge)

- ❖ You will then see a screen that requires you to enter your Account Number and dosimeter Serial Number (this number is located in the same locations on your badges as the Account Number)

The screenshot shows the "Landauer Individual Dose Report" web form. It includes the following elements:

- Header: "Landauer Individual Dose Report"
- Instructions: "Please enter Account Number and Serial Number from your dosimeter and click the 'Submit' Button."
- Navigation links: "Individual Dose Report (IDR) - System Demonstration" and "Individual Dose Report (IDR) - Glossary".
- Input fields: "Account Number \*" and "Serial number \*". Both fields are circled in red.
- Buttons: "Submit" and "Reset".

- ❖ The summary screen that appears allows you to view your most recent quarter's results, the last two years' total doses and lifetime doses.
- ❖ If you would like to see more detailed information, click on "View Details"

To protect your privacy, no personal information is displayed

History Results  
The doses are displayed in mrem
