

## Distance Learning Laboratory Safety Agreement

Students are not permitted to start any at home distance learning experiment without completing the required safety training and signing this agreement. Signature of guardian/homeowner must be obtained if applicable.

I \_\_\_\_\_ acknowledge and agree to all of the following:

- I agree to carefully read each laboratory procedure before starting the experiment and will follow all safety precautions as described in the laboratory procedure.
- I understand that I am responsible for following the specific safety precautions as described in each laboratory procedure.
- I understand that failure to follow the safety precautions contained in each laboratory procedure could result in a serious accident or injury to myself and others.
- I am aware that the procedures may contain hazardous materials which if not stored, handled, or disposed of properly may be hazardous to myself and others that may come in contact with the kit, especially young children and pets.
- I am aware that the procedures may contain hazardous materials particularly for students with chronic medical issues or who are pregnant or nursing. I will consult my physician or health care provider about potential risks associated with the laboratory if I have a medical issue or concern.
- If applicable, I have notified my guardian and/or homeowner regarding the use of these kits. By signing this agreement, they are permitting my use of these kits per the safety precautions described in the laboratory procedure.
