

Gamblin Gamsol is the only approved mineral spirit permitted for use in *Painting 101*.

Use: Artists' oil painting solvent. Intended for thinning oil colors, thinning oil painting mediums, grounds and varnishes, and for general brush clean-up.

Hazard: Gamsol is a health hazard. Repeated dermal exposure may cause skin dryness or cracking. May be irritating to the eyes, nose, throat and lungs.

Material can accumulate static charges which may cause an ignition. Material can release vapors that readily form flammable mixtures. Vapor accumulation could flash and/or explode if ignited. Combustible.

Personal protective equipment (PPE): Avoid contact with skin. If dispensing Gamsol, the safety goggles, face shield, and nitrile chemical resistant gloves provided by Fine Arts must be worn. Wash hands after removing gloves.

Storage: Gamsol must be stored in the flammable liquid cabinet when not in use. The container lid must be securely closed. The flammable liquid cabinet door must be kept closed at all times when not in use.

Disposal: Gamsol waste is disposed of in 5 gallon carboys in the satellite waste accumulation area near the flammable liquid cabinet. Carboy lids must be securely closed when not in use.

Spills: Immediately report all spills to your instructor. Do not clean up on your own.

Health & Safety: Notify your instructor if an exposure has occurred. An eyewash is available at the sink. Any student with an exposure must report to Student Health at 3535 Market St. Suite 100 for medical evaluation. EHRS will follow
