CERTIFIED LENSES

MATERIAL:
Polycarbonate

LENS DESIGN:
Single vision or Progressive vision

MAXIMUM POWER RANGES:
(depending on frames)

| -12/+10	cyl 5	Add 0.75 to 3.5

INDOOR

CLEAR:
Provides 90% light transmission.
Total UV blocker: UVA and UVB rays (99.99%).

⁺PLATINUM, the ultimate protection against fog and scratch.

OUTDOOR

SMOKE GREY:
Total UV blocker: UVA and UVB rays (99.99%).

HARD COAT, protective coating applied to increase resistance to scratches.

NO-HEIGHT PROGRESSIVE

Innovative progressive lens design that eliminates the need for height measurements traditionally required by wearers visiting Eye Care Professionals (ECP).

+ Great field of vision
+ Sharper vision and enhanced visual comfort
+ Ensuring smooth transition through multiple power ranges
+ Available for power ranges -12/+10
